2147 Jesuitas Street, Sta. Ana Brgy 880 • Manila 1009 • jeryeoljohntenebro@gmail.com • 09949130184 •February 3, 2005

Education

Philippine Christian University (Studying)
Manila, Philippines
- Bachelor of Science in Information Technology (BSIT), 3rd Year
  Graduation Date: [N/A, 2028]

Mariano Marcos Memorial High School (Graduated)
Manila, Philippines
Graduation Date: May 30,2024

Experience

Organization
Position Title

May 21 – 2026

(Lead Backend Developer / 2nd-Year Mini Capstone Project)

- Engineered a custom Java database application to streamline stock tracking and automate inventory updates for a simulated Puregold Grocery Store environment.
- Programmed robust backend functionalities using object-oriented Java logic to process real-time product data queries, minimizing stock-check latency during peak simulated hours.
- Constructed secure user login protocols and search query handling, ensuring efficient data retrieval and restricted system access for authorized store personnel.
- Optimized data structures within the application to manage high-volume product SKUs, preventing database lag and improving overall system response times.

Skills & Interests

Technical: Java, Python, HTML, CSS, C#
Language: Tagalog, English
Interests: Adventure, Cycling, Gaming ,
